A night of music, DJ and dancing at this 90's themed club night event. You are welcome to come dressed as your favourite 90's icon, or in a 90's inspired outfit if you would like.

The ARCTic Piranhas are a group of learning-disabled adults who plan fun, safe and inclusive club night events for learning disabled in adults in Teesside.

No 60 bar will be open serving alcoholic and non-alcoholic beverages, so bring additional money for drinks and snacks.

If you would usually be accompanied by a carer or companion please bring them along, as this isn't something we can provide. All carers or companions go free.

Please note during the event there will be loud music. We can provide ear defenders if required. There will be no sudden loud sounds or flashing lights.

During the event it may get busy; there will be loud music and colourful lighting. If you need a little break from the party, there will be a chill-out space on the same level away from the venue which you can use.
