

Special Thanks

This new work has been created in collaboration with writer Connor Dorrian, third year BA (Hons) Acting for Stage and Screen students with support from third year BA (Hons) Film, TV & Theatre Production students.

We are super excited to be working with Arc, Stockton Arts Centre again tonight for our final university performance of Cupid.

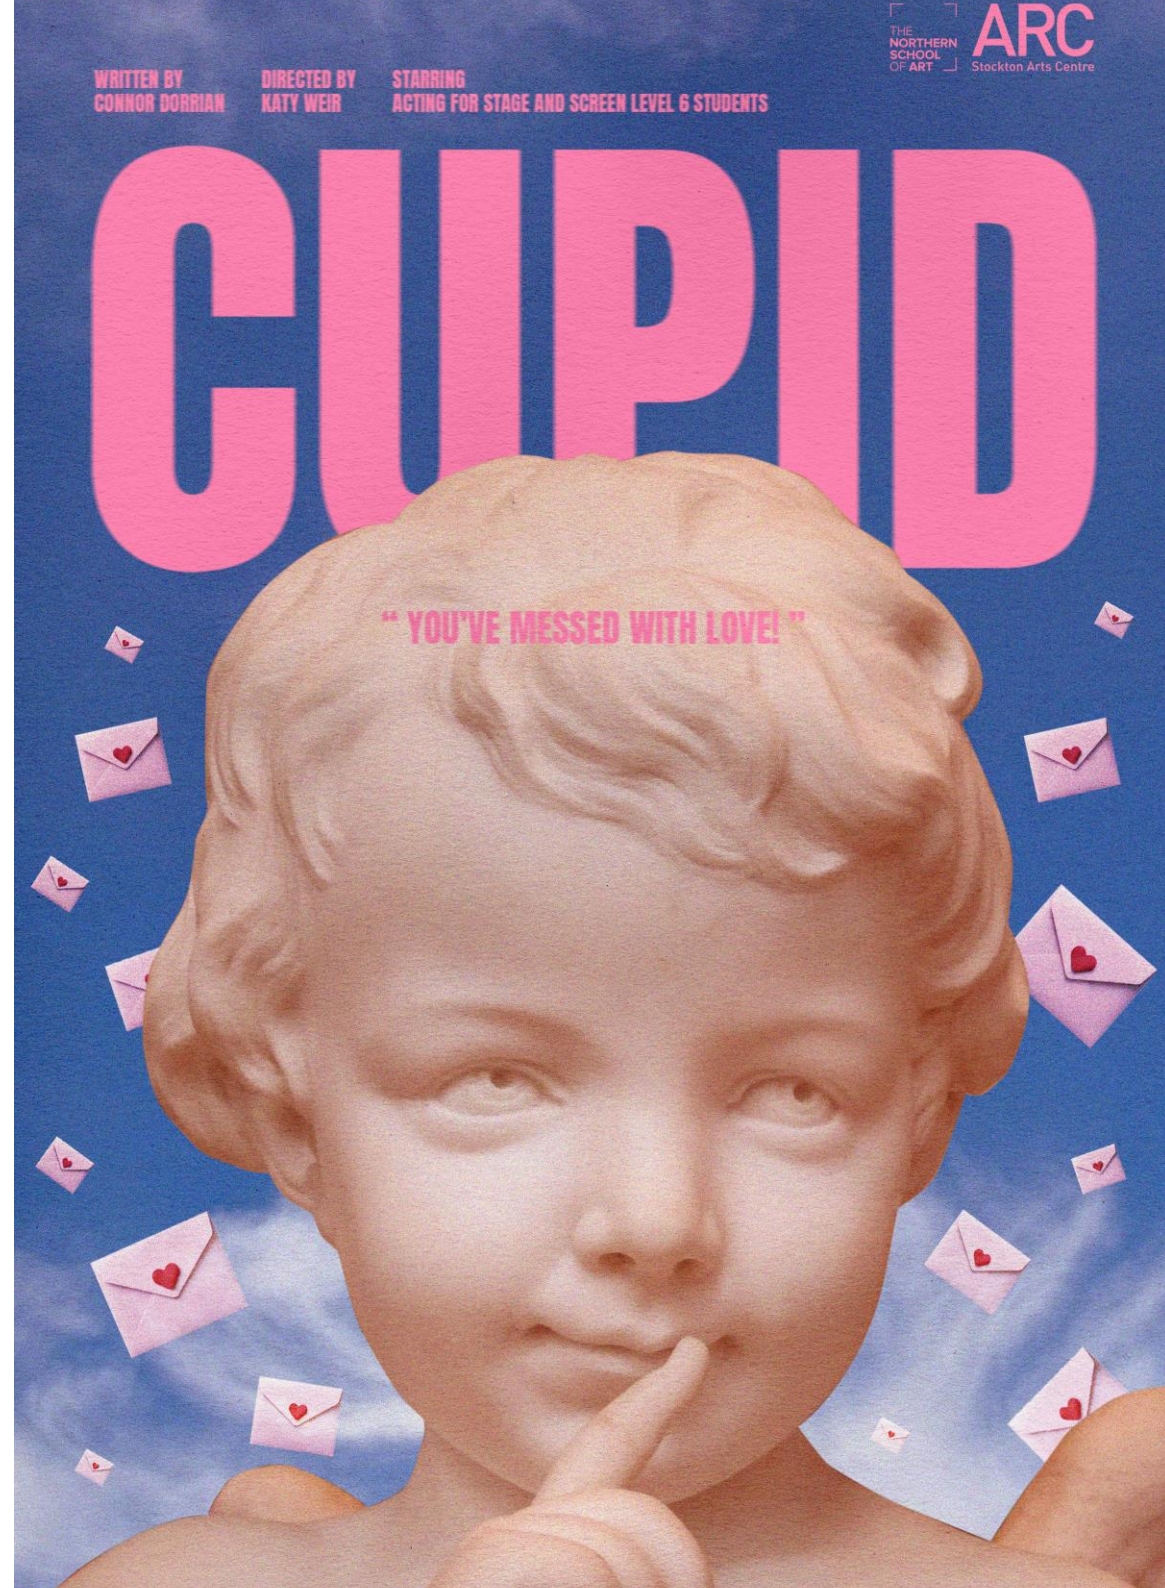

The cast and crew have had an incredible time in rehearsals and have brought their A-game every single day. We can't wait to share the fun we've had over the past few weeks on the stage with you tonight!

We wish to thank everyone that has helped us flourish over the past three years and we are really looking forward to presenting this final piece showcasing all our hard work and dedication.

A massive thank you to:

Katy Weir
Lee Charnley
Jonny Bussell
Jonny Youdale
Steve Byron
Dave Edwards

For believing in all of us, always.

Cupid

It's Valentine's Day and the local postie has run off with all the letters to try and understand what Love is and why they can't find it. In turn, causing valentine havoc amongst the town.

A play about love, self-acceptance and what Valentine's Day is for or can be.

The Rehearsal Room
